Financial Responsibility Statement

Welcome to the Center for Living. Our services are, for the most part, fee-for-service and payment is expected at the time of each visit.

Please be aware that many commercial insurance payers do not cover complementary services such as massage, acupuncture, biofeedback or nutritional consultation, or various other services that St. John's Center for Living may provide. You are welcome to contact your Insurance to verify coverage. Upon request, we will provide you with an itemized statement that you can provide to your insurer with your physician order. However, seeking reimbursement will be your responsibility.

I accept financial responsibility for Center for Living services provided to me at St. John's Hospital. I am aware that these services are generally considered "not covered" in most health plans.
